**CONFIDENTIAL**FOREIGN BROADCAST INFORMATION SERVICESupport to Habib

FBIS materials on the Lebanese crisis continue to reach U.S. envoy Philip Habib in Beirut as the result of special arrangements worked out by the State Department working group. FBIS bureaus file the items from the Middle East radios to the Department which relays the material to the Ambassador's residence in Beirut via telex. One of the items forwarded was a TASS report of 6 July claiming the Israelis had shelled the Soviet Embassy and the Soviet Trade Center; the U.S. group in Beirut reported back to the Department that the TASS claim was not true.

Support to START

The U.S. delegation to the START talks in Geneva has requested and will receive materials from FBIS by wire. The information will include authoritative Soviet statements on arms control issues, Soviet items on U.S. and Soviet strategic arms, material relating to START and the talks limiting strategic arms in Europe, and significant material on Soviet internal developments, especially relating to the Soviet leadership question.
